Front Key Operation

Key Definition
Short key   long key
Press it in less than 1second   press it in more than 1 second

Setup Menu Function
Refer to the Setup Menu Operation section.

Zoom Function
A zoomed area can be moved by pressing 4 arrow keys when zoom function is invoked. Freeze function can also be invoked while zoom function is invoked.

Freeze Function
All displayed channel is frozen when freeze function is invoked. Zoom function can also be invoked while freeze function is invoked.

Playback Function
When playback function is running, 4 channel keys select camera to be displayed as single full screen and the MODE key makes quad display mode.

Quad A or B Display
Key A/B selects page to be displayed. Page A and B is toggled for each A/B key.

Multi Channel Display

The display modes are circulated as the following sequence, Non-realtime 4 Split, 2 Picture-in-Picture, 1 Picture-in-Picture and Dual Split for each MODE key.

UP and DOWN key selects the channel in 2 Picture-in-Picture, 1 Picture-in-Picture and Dual Split mode, and then the selected channel boundary is blinked. The camera in the selected channel can be chosen by LEFT and RIGHT key

Auto Sequence Display
AUTO key invokes auto sequence display mode and this mode can be maintained until any other display mode is selected.
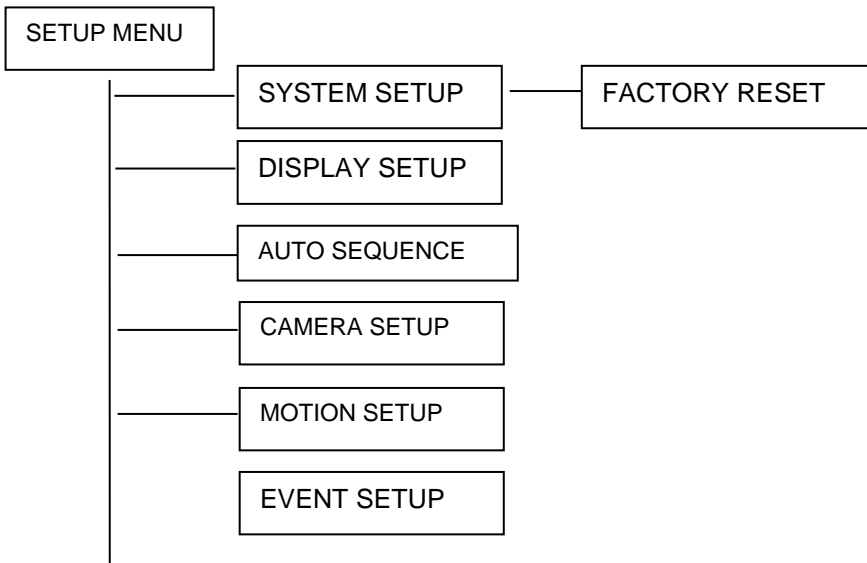

Single Channel Display
Each channel button selects camera to be display as full screen. When pushing same button, camera is toggled to the other page.

PAL/NTSC System
System can be defined as NTSC or PAL standard with the following method. The first method is to power on with pressing RIGHT or LEFT key and the second one is to define in the setup menu.
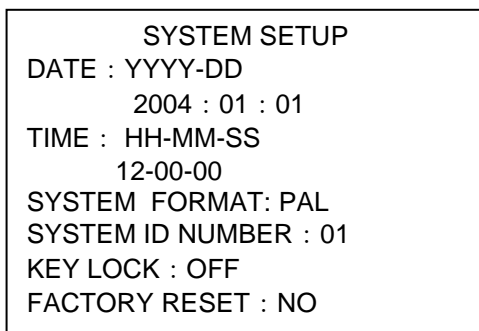

Setup Menu Operation
The system provides a built-in GUI setup screen. For each menu, the key function is described in the lower region to help operation. The following figure shows the structure of GUI menu.
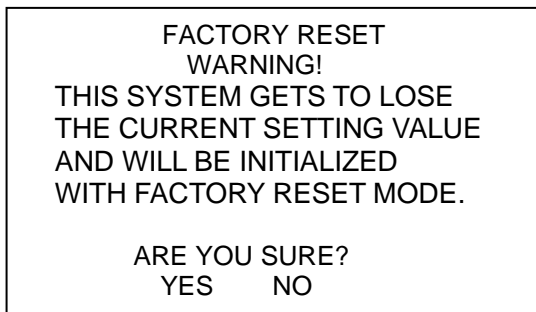

Setup Main menu

```
